Meaningful Use 2
(aka. 2014 ONC Ambulatory EHR Certification)

Remaining items:
a8   - Clinical decision support:
This should pass at next test this week.

g2   - Automated measure calculation:
Undergoing coding and almost ready to test. Estimated completion time of 2 weeks.

g3   - Safety-enhanced design:
Virginia with Columbia University Health IT Certificate Program has completed revised testing and report; working with Harley at MI-Squared on completing it and turning it on. ZH Healthcare has also offered to help with this item in case above report does not pass. Estimated completion time of about 1 week.

Budget:
About 6 hours more testing time which is $175 per hour ($1050 total) plus Visolve's fee of $3900. Will be about $4950 total.
